

AMENDMENTS TO THE SPECIFICATION:

Kindly replace paragraph [0052] with the following amended paragraph:

The basic dither pattern's 48 lateral by 24 longitudinal pixels assign values (numbers) of 1 to ~~[[1552]]~~ 1152, respectively. This value indicates an order in which a dot is illuminated in accordance with a level. If no dot illumination corresponds to a level of 0 and the basic dither pattern entirely illuminated corresponds to a level of 1152 then in total 1153 levels of gray can be represented.
